

# Artist Residency Program

***One Month***

Presented by Studio Grafis Minggiran

## About the Program

Studio Grafis Minggiran has embarked on a residency program based in Yogyakarta, a city in Indonesia where contemporary art meets culture and tradition. The program will be open to anyone interested to learn about Graphic Arts, in the area of Printmaking.

Each year, there will be two main residencies running but we welcome write-in requests upon assessment. Our vision is to have at least two artists work closely with us for the duration of a month, resulting in 12 of such cycles annually.

Grafis Minggiran will offer the artist-in-residence a glimpse of Yogyakarta as a subject of discourse as well as a place for the sharing of knowledge. The main intent of the project is also for the artist-in-residence to experience different cultures from Indonesia melting together within the heart of Yogyakarta.

## Courses

Graphic Art techniques that Grafis Minggiran will impart are those that the valued members have been mastering since her establishment in 2001. The techniques range from the planographic technique of aligraphy, intaglio techniques such as etching, aquatint, drypoint, to relief printing techniques like inocut and woodcut.

All the specialized tools needed for these techniques are available in the studio, packed with other useful facilities and equipment.

The studio focuses mainly on producing prints on paper media, but we are open to proposals in creating experimental work combining traditional print with other media or materials.
